My name is Cathy Nichols. I am married and the mother of three children. I was born in Bakersfield, California and lived in Blacksburg for 12 years. We are now living in Rhode Island and I intend to continue creating art with concrete here. I have been working with concrete for five years. I enjoy working with concrete due the diverse types of art that can be made with it. Creating something from nothing more than a bag of rocks and sand gives me a satisfying artistic outlet. I love seeing it placed in a garden and melding into the landscape. Due to the durability of concrete it can endure the exposure to the elements and retain its integrity. I can be contacted via email or cell phone: canicho@yahoo.com or (540)808-7395.
