Constructed by Mr. Michael Collver, Trent Yates and David Yaun of Blacksburg High School with the help of Nick Blevins of Christiansburg High School Bordeaux is an imposing found object likeness of an angus bull. Thanks to the materials donated by Mary Nickel of McCoy, VA and body, head and concept from Diane Relf and Dave Angle of Christiansburg we were able to make use of the Blacksburg High School STEAM Lab for fabrication. Steel and Iron treasures from the homes and vehicles of the mid-20th century went into his construction. Michael Collver, STEM Educator Blacksburg High School 3401 Bruin Lane Blacksburg VA 24060
