

Title: Iridescence

Artist: Christiansburg High School Art Department (Laura Graham)

Brief Artist Biography: I have been teaching at Christiansburg High School for 3 years. I teach levels Art 1-3 with a focus on 3D sculpture.

Contact: lauragraham@mcps.org

Art Statement: Students in Art 1 designed a radial pattern that they then etched onto a CD disk. The CDs were strung together to form a curtain that is hung from a branch. The iridescent film was colored to create a vibrant motion as the curtain moves with the wind. Hanging from a tree branch without touching the ground. Our installation will move with the wind as it hangs from a branch.
