**Artist Biography:** Gail Olson lives in Bristol VA. She is a Master Gardner that enjoys converting pasture and hay fields on her property to wildlife habitat. Gail considers the woods behind her house to be her *Fairy woods*. Grandchildren play there and have fort in the woods. Gnomes and fairies are hidden all throughout to encourage them to observe.

**Art Statement:**

Gail thinks that nature is the true artist. Any artwork we add should enhance but never compete. The Art Fairy was created using stainless steel wire. Screen mesh was used on wings. Finished product was sprayed with light blue paint to be more visible on the tree in the fairy woods.
