

Title: Birds of Peace, Love, and Joy

Artist: The Gourd Whisperers

Brief Artist Biography:

- Debert Jones
- Johanna Jones
- Diana Law

Art Statement: A number of our regular gourders didn't have time for full scale sculptures but still wanted to have a little fun with psychedelic gourds (it's good for your health and expands your mind). Any unidentified gourds you may come across can most likely be attributed to one of these folks.
