## **Lady Moderna**

*By Terry Warthen*

**Artist Statement:** Lady Moderna, people wait in line, hoping that your vaccine will keep them fine.

**Artist Biography:** I work primarily in stone or copper but I also explore creating art with other materials. I enjoy using found objects from around the house to make assemblages and other art pieces. I have dabbled with various art mediums through classes at the Corcoran School of Art, Christopher Newport University, Arrowmont School of Arts and Crafts, the Bascom and the YMCA.
