Fairy Community

By Nancy Trivette

Artist Statement: Living on a wooded property and being an avid gardener, I have always been drawn to those “little places” that might provide a little magic, whether it be a place that I, or the children and grandchildren are keeping an eye on or actually preparing in hopes of a visit from the fairies. I am inspired by the items I can collect on my daily walk abouts. The gourd mushrooms were inspirational because they seem to be perfectly suited for a fairy to take up residence in.

Artist Biography: I am a dabbler in textiles, gourds, and casual garden landscape. For 45 years I have drawn my inspiration from nature, living on wooded property surrounded by mature trees, creeks, rocks, wildflowers and wildlife.
